

## Jack Chambers Charge Ahead

Happy Friday!! Below are this week's updates:

### **Parking Lot Safety**

Thank you to so many parents and caregivers who are using our “kiss and ride” area at the south end of the school. Please remember to drive slowly when approaching this area as we do have pedestrians who cross through the parking lot in the designated crossing areas near the drop off zone.

Please make sure you drop your students off where there is a staff member standing and NOT in the middle of the parking lot. There is a staff member in front of the concrete median. Please do not let your child out of the car until the staff member motions that it is safe to do so.

Also, a reminder to parents who are parking in the lot to please make sure that you are not parking in the accessible parking spaces unless you have a permit for these spots. We do have a number of families who require these spots and have had other vehicles without permits in them. Thank you for your support to keep everyone arriving safe!

Please see a message from our charge custodian, Mr. Steele, regarding some exciting [energy saving measures at Jack Chambers](#)

### **Coming up:**

February 10 - first hot lunch day
